The "Hath se Hath Jodo" campaign in Telangana led by Revanth Reddy is reaching the high water mark. The hard work of the party leaders is showing the impact on the public. Hath se Hath Jodo yatra is basically a door to door campaign in which the Congress leaders and workers go to door to door having the charge sheet against the Modi government. The papers are the list of faults and false promises made by the modi government. The enthusiasm of the people is at a high level with a clear message— "it's time for change." In Telangana, the fragrance of the change is all around. And the Congress party has planned to implement the pro—farmer Chhattisgarh model in the state.
