In Bharat Jodo Yatra, this leader proved that his conversations with his dear people of the country

A Democratic and Harmonious India is Key to Global Future

PATNA: CONGRESS DARPAN

The idea of global immune system, a part of Indian National Congress leader Rahul Gandhi's lecture at the university of Cambridge gives the new methods to have the democratic tenets back. The need of the democracy is the prominent need in the world. Mr. Gandhi says that we simply can not afford a planet that does not produce on democratic conditions. According to him, the interaction between the leader and public should be the important organ of any country. That's why he focused on the theme "the art of listening".

He said that the global future lies not in massive accumulation of wealth, coercive modes of production and economic inequality but in conversations and negotiations. A democratic and harmonious India

is key to global future. His idea of decentralization of power says that forces should not be practiced on the workers in the factories or companies in manufacturing rather the owner and the workers should maintain a good dialogue between them only then the production of any manufacturing organization can be increased. In the same way, the transparent conversation between the government and public would be the base of a democratic country.

Mr. Gandhi, in other words, wants the public to be aware regarding their country and the county affairs. In Bharat Jodo Yatra, this leader proved that his conversations with his dear people of the country, will get back the true tenets of democracy in India.

Coercive Behavior is Harmful for Democracy

A march led by Randeep Singh Surjewala and Siddaramaiah from Congress office to the abode of the C.M. of Karnataka Basavaraj Bommai. The main agenda of the march is that the C.M. is protecting the BJP MLA's son Prasanth Madal. This man was arrested red handed by the Anti-corruption organization Lokayukta taking bribe of 40 lakh rupees. And the

marching leaders were asking for the resignation of the chief minister of Karnataka. And eventually, all the leaders were detained by the police. In the Modi

government this is the cost of raising voice against corruption and dishonesty. The detention is overtly showing the coercive temper of the government

towards the public and the opposition. This kind of behavior is really harmful for the democracy of the country.

A door to door campaign

PATNA: CONGRESS DARPAN

In order to spread the message of Bharat Jodo Yatra, the congress leader K C Venugopalan as a harbinger with the other party workers went door to door in Alappuzha, Kerala. Mr. Venugopalan along with the chargesheet against the Modi government stood door to door and street to street and showed the real face of the ruling party. He imparted all the problems to the public created by the government and also looked at the actual problems of the subjects.

The Indian National Congress is trying to bring the integrity back again that has been smashed by the Modi government in the name of caste and religion.

Mr. Venugopalan tweeted—

"participated in Hath se Hath Jodo Campaign in Alappuzha, Kerala as part of my duties as a congress karyakarta.

We took Rahul Gandhi's message from the Bharat Jodo Yatra and a chargesheet against the Modi government in an extensive door to door campaign in my locality."

Udan yojana is the blessing for women

PATNA: CONGRESS DARPAN

On the birth anniversary of former prime minister Mrs. Indira Gandhi, the Rajasthan chief minister had launched a scheme called "Udan Yojana". This Yojana with its 200 crores rupees budget provision was started in November 2021 and now its good impact is pervasive all around in Rajasthan. This scheme is basically for young girls and women as it provides free sanitary pads to the females in the state. Mr. Ashok Gehlot has instituted a very needful scheme that is a great step in the field of women empowerment.

Still in the country side, the women use the torn pieces of clothes during their periods that cause different kinds of infections and diseases. Due to the

scarcity of awareness about their own body these women again and again use the same rag after washing and drying. And one day definitely, they get the vaginal or uterus diseases.

For the sake of the good health of the women of the state Mr. Gehlot has done a marvelous job by saying "Seva Hi Karma Seva Hi Dharma" that none of the BJP chief ministers has done yet. In addition, he has framed the men and women equally and for the welfare of the state and the country, took the great step. It is the only Indian National Congress that knows that the health of the women is the wealth of whole nature. And they are working every moment for the welfare of the women.
