The Respectful Atmosphere Of Opinions Has Been Destroyed

PATNA: CONGRESS DARPAN

The Indian National Congress leader Mr. Rahul Gandhi addressed the Indian diaspora in Hounslow, London on 5th March. He spoke about many issues like the importance of Bharat Jodo Yatra, governments coercive attitude, Indian economy etc.

Mr. Gandhi imparted the masses that the Indian ruling party does not allow the oppositions any idea or concept to be spoken in any Indian universities because they want the youths to be strayed. Even in parliament, the Modi government doesn't allow the opposition to talk about the important affairs like demonetization, G.S.T., Chinese entering in the country etc. The ruling party has grabbed all the Indian institutions that allow the conversation and eventually, the respectful atmosphere of opinions has been destroyed by the Modi government.

The public of the country are in extreme fear and they do not dare to raise their voice against the government and in order to encourage and understand the real situations occurring inside the country, the Bharat Jodo Yatra was very much important. Mr. Gandhi putting light on Bharat Jodo Yatra says that a Yatra is not simply a Yatra across the country rather to understand the problems, situations and circumstances of the country is the real Yatra. In other words, Yatra is actually an introspection. Many greatest personalities used the idea of Yatra like the father of the nation Mahatma Gandhi, Vivekananda, Gunanak etc.

Mr. Gandhi also explained that what was his role in the Yatra by saying that if anybody would come and indicate to talk that person should feel that he or she is at home. He wanted a familiar relationship with him or her rather a political relationship. He thanked all his supporters who stood firmly by his side during that tough thousands of kilometres Yatra.

An Appreciable Step

The chief minister of chhatisgarh Bhupesh Baghel provided 20 lakh villagels families pure drinking water. This scheme of Chhattisgarh needs to be appreciated. This time in "Chhattisgarh Bharose K Budget" 2000 crores rupees has been assigned. The Indian National Congress is delivering its public all the needs and providing all their rights.

The pure drinking water is an extreme need of everyone. There are many dangerous diseases that are caused by polluted water. And keeping in the mind about the importance of good public health, the chief minister has taken a great step.
