Calling the family that irrigates the country with their blood as anti—national is the real treason : **Dr. Akhilesh**

PATNA:CONGRESS DARPAN

Patna August 20,23

It is the country's misfortune that Narendra Modi and the entire Sangh Kunwa are trying to humiliate the family of Bharat Ratna like late Rajiv Gandhi in various ways. Whereas the truth is that when Atal Bihari Vajpayee, the founder of BJP, was suffering from a serious illness and he did not have money for his treatment, the then Prime Minister Rajiv Gandhi included Vajpayee in the delegation of the United Nations Federation and supported him at the government expense. Sent to America, so that he could be treated.

The delegation had returned to India but Vajpayee ji returned to India after getting his entire treatment done at government expense. Dr. Singh said that it is surprising how Prime Minister Modi, who claims to be a disciple of Atal ji, spews fire against the family of such a person. How the conspiracy to harass that family is going on at the behest of Modi. What kind of nationalism is it to call the family of a man who has irrigated the land of this country with his blood, a traitor. In fact this is the real treason.
