Congress termed the alleged rigging in the NEET-Graduate exam for admission to medical courses as 'Vyapam 2.0'

New DelhiThe Congress on Friday termed the alleged rigging in the NEET-Graduate exam for admission to medical courses as 'Vyapam 2.0' and said that Prime Minister Narendra Modi cannot remain a silent spectator to this. The main opposition party said that the matter should be forensically investigated under the supervision of the Supreme Court. Congress President Mallikarjun Kharge alleged in a statement that the Modi government, the Education Minister and the NTA have started whitewashing the NEET scam.

The central government is making various efforts to cover up the NEET scandal

The central government is making various efforts to cover up the NEET scandal. The actions of the NTA, which initially claimed there was no irregularities or wrongdoing, has tacitly acknowledged its existence. First, grace marks were justified, but now grace marks have been canceled. They claimed the question paper was not leaked, yet complaints were filed, and arrests were made regarding the leak. Why is the central government, which is playing with the future of millions of students, reluctant to investigate the NEET scandal?

NSUI stands together in this fight to get justice for NEET candidates

Hundreds of NSUI activists under the leadership of Rajasthan NSUI regional president Vinod Jakhad today surrounded the Kota District Collector's office against the manipulation in NEET exam. Police charged NSUI activists with baton charge while the Collector was surrounding the office. Many activists along with state president Vinod Jakhad were seriously injured while charging lathi. On this, Vinod Jakhad said, the way the future of 24 lakh NEET candidates was played, shows how serious the Modi government is about the future of the students. NSUI stands together in this fight to get justice for NEET candidates and the struggle will continue.

Spoke to media representatives in Mysore

Five guarantees will continue in the state, no doubts about it. There is no question of stopping these programs as they are a program to empower the poor. This time we got 9 seats from one position in Lok Sabha. The result didn't come as much as we expected. From one to 9 positions, 13% more votes are in our favor than last time. Not stabbing our backs like that. Our result is better than last time but not as expected. Former Chief Minister B. S. Who has complained in the Foxo case registered against Yeddyurappa? Isn't it

true that a private person complained, not the government? Where is hate politics when it is like this? Will not interfere with the work of police who work lawfully. Everyone needs to accept the court order and act accordingly. No influencers came to meet me in the murder case against Darshan. BJP people are making false allegations. We will behave according to the law of this land. The legal investigation goes the way it should be, nothing else is done. I also don't know the purpose behind the decision of Shamiyana around the police

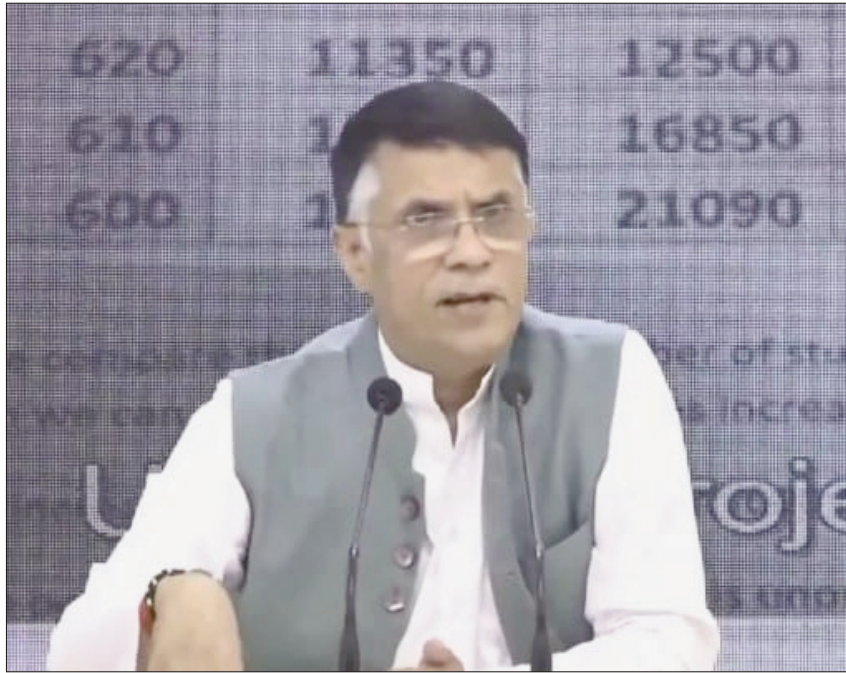

station. The police inform me and have not decided. The government is working for the com

mon people. We listen as common people say. #Mysuru #PressStatement Siddaramaiah

As soon as the new BJP government took oath, it again started attacking the dreams of the youth. The arrogant response of the Education Minister on the irregularities in the NEET exam results completely ignores the cries of 24 lakh students and their parents. Does the Education Minister not see the facts available in the public? Does the government consider the police actions and rackets busted in Bihar and Gujarat as false? Is the 67 toppers getting full marks also a lie? **SHREEMATI PRIYANKA GANDHI VADRA**

Our request is:1. Students who got above 580 marks should release the names of written exam centers.2. 12th grade board grades should match the NEET toppers.3. Video records of exam centers written by examinees who have higher marks than average.4. List of all students who changed exam centers using window should be released.Mr. Pawan Khera

Closed house, treatment of parents, marriage, education of children. So, with so many hopes and dreams, our loved ones walk into the exile life. Out of a desperate desire to achieve at least half of these dreams, those men work from limited employment opportunities. The lifeless bodies of 23 such people reached the Kochi airport a little while ago. This situation is heartbreaking. The living conditions of each of the deceased are crowded these days. Each one has many stories of having to live in exile in order to survive. At last they are returning, leaving their dreams at the halfway point. Nothing can replace the pain of losing a loved one.

My heart aches for the sorrow caused by the Kuwait tragedy. The shattered dreams and ruined homes weigh heavily on my mind. The pain from this tragedy is profound and seemingly insurmountable. I offer my deepest condolences to the grieving families as their loved ones sadly return home in coffins.Alka lamba

On behalf of World Environment Day - 2024, BBMP has participated in greening, "I am a green protector" campaign under the concept of brand Bangalore at Cubbon Park today. Everyone plant saplings and water them on Environment Day. But this should not just be limited to Environment Day everyone should show environmental concern by nurturing the plants they plant everyday. Only then planting saplings will be worthwhile. Children should be caring for the environment, motivated to keep our environment clean. We can only live in a beautiful environment when environmental cleanliness becomes an integral part of us.
