BIHAR PRADESH CONGRESS SEVA DAL SADAKAT ASHRAM PATNA-10

Bharat Dojo Yatra is coming soon

During the Bharat Jodo Nyay Yatra, as we journeyed across thousands of kilometers, we had a daily routine of practicing jiu-jitsu every evening at our campsite. What began as a simple way to stay fit quickly evolved into a community activity, bringing together fellow yatris and young martial arts students from the towns where we stayed. Our goal was to introduce these young minds to the beauty of the 'Gentle Art'—a harmonious blend of meditation, jiu-jitsu, Aikido, and non-violent conflict resolution techniques. We aimed to instill in them the value of transforming violence into gentleness, giving them the tools to build a more compassionate and safer society. On this #NationalSportsDay, I want to share our experience with all of you, hoping to inspire some of you to take up the practice of the 'Gentle Art'.

Dr. Sanjay Yadav expressed concern over the increasing atrocities against women in the country

PATNA: CONGRESS DARPAN

Bihar Pradesh Congress Seva Dal President Dr. Sanjay Yadav has recently expressed concern over the increasing

Raised voice for women's rights and safety

atrocities against women across the country. He said that the slogan 'Beti Bachao' has now become just a slogan and concrete steps need to be taken to turn it into reality. The crimes being committed against women are intolerable and highly condemnable. We should not only talk about 'Beti Bachao', but should work towards giving 'equal rights to daughters'.

Women need not just protection but a fear-free environment where they can live freely. He emphasized that the statistics of crimes against women in the country are shocking and its solution can be found only by making strict laws. Dr. Yadav said that

Congress National President Shri Mallikarjun Kharge ji has given many suggestions, the Modi government should implement those measures. For example, 43 crimes against women are registered every hour in the country, many of which are against women of Dalit and tribal class. What is even more worrying is that many crimes are not even registered, because the victims hesitate to come forward due to fear of society and social pressure. This situation shows that there is a need for major changes in the law and social structure. Dr. Yadav, while targeting the government, said that Prime Minister Modi has talked about women's safety in

his speeches many times, but no major change has been seen in the ground reality. Making plans on paper and writing slogans on the walls is not enough. We have to ensure that concrete steps are taken to stop crimes against women and the justice system is improved so that the victims can get justice. Police and judicial reforms are needed for the safety of women. Along with this, it is also necessary to provide facilities like better street lighting, women's toilets, and women call centers in cities. He said that now the time has come for us to together create a society where every woman can live without any fear and can stand up for her rights.

Date: 29 August, 2024 | Venue: Hotel Taj West End, Bengaluru

Special grants and tax distributions have been reduced to 80,000 crore in the state for the last five years. The 16th Finance Commission requested to fix this, the commission responded positively. It is requested to add Cess and Sarjaj to the Divisible Pool and non-tax income to the Indian Government to the Divisible Pool. The state government is

spending ₹5,000 crore every year for Kalyana Karnataka Pradesh and ₹25,000 crore per five years, the central government has also been requested to provide a similar grant. The development of Bangalore will cost around ₹55,000 crore, demanding at least half of the amount to grant. More grants were requested to be given for disaster management in

Western Ghatta. Well performing states should not be fined. percentage from our state to GDP of the country. Offering 9, we only have a percent of it. Only 1.5 is coming to the state. This has been requested to be fixed. There was 4.713 tax distribution to the state in the 14th Finance Commission. But this rate fell to 3.647 in the 15th Finance Commission, demand-

ing this rate to be corrected. The commission has given an explanation about 1.66% reduction in tax scale. When he was the Chief Minister of Gujarat, Narendra Modi was in tax distribution. Was in demand for 50s. Since many states have demanded this way, I am confident that Karnataka's demand can be fulfilled.

16^{ನೇ} ಹಣಕಾಸು ಆಯೋಗ 16th FINANCE COMMISSION

Date: 29 August, 2024 | Venue: Hotel Taj West End, Bangalore

Hon'ble Chief Minister and I participated in the consultation meeting held by the 16th Central Finance Commission with the representatives of major parties of the state today at a private hotel in Bangalore. Karnataka has played an important role in the development of the country. The state ranks second in GDP contribution in the entire country. Although Karnataka contributes about Rs.4 lakh crore to the total tax revenue of the country every year, the state receives very little money in the form of tax share. This meeting is important in redressing this injustice.
