Rahul Gandhi ji set the bar so high that no politician in this country or the world can ever cross it, & that bar is to go to the people directly. In him, they see hope & vision. They see a man who is willing to listen to their pain & find solutions.

Mallikarjun Kharge Ji has 50 years of legislative experience. When the PM insults him, he also insults our elected representatives who voted for him.

When the PM insults Sonia ji, he insults women of our country. The PM has failed to maintain the dignity of his post.
