The step of demonitisation of Rs.2000/-

The step of demonitisation of Rs.2000/- currency notes is irrelevant, uncalled for and burdening the general masses without any larger gains. Currency notes circulation control is primarily taken to curb cash hoarding and black money. There does not appear to be either in our present economy. A large part of the earning population is now doing transaction through bank accounts. Be it

online transactions, UPI payments that includes the smallest of transactions. This has majorly addressed the issues of tax evasions. The robust tax collection is being witnessed in the growing GST collections, Direct Tax collections.

Hence, this demonitisation is clearly targeted with an objective of vindictive politics at the cost of general public's inconve-

nience and a large cost to the economy. The Government must explain with statistics on this unreasonable demonitisation.

Isn't it the Karnataka state results which is pushing back the BJP and compelling it to take draconian decision like this before 2024 general elections ?

BJP's needs to be ousted so lets come together and free the country from the vin-

dictive rule of BJP .

Joint statement issued by like-minded opposition parties PM Modi's decision to inaugurate the new Parliament House, completely bypassing President Her Excellency Draupadi Murmu, is not only a grave insult to the institution of President, but a direct attack on our democracy, which demands an appropriate response.

When the spirit of democracy has been trampled, Congress party see no value in a new building.

Party will continue to fight in letter and in spirit against the autocratic Prime Minister of India and his government.

What an Irony.....

That documentary that Modi Ji banned in India using all might, is to be screened at the Australian Parliament while he is still on a visit to Australia!
