## Rahul Gandhi ji intention is very clear that are only the people of BJP and RSS Hindus?

PATNA: CONGRESS DARPAN

**02/07/2024:** In the sacred courtyard of Akhand Bharat, Parliament House, the leader of the opposition, respected Rahul Gandhi ji has not said anything wrong in the context of Hindutva. His intention is very clear that are only the people of BJP and RSS Hindus?

Bihar Pradesh Congress Sevadal Social Media President Ashok Kumar Priyadarshi reacted strongly against BJP and its supporting parties and said that for the past few decades, in order to come to power or remain in power, they have been trying to prove themselves as the contractors and leaders of

Hindu religion by inciting and misleading the majority of Hindus here in an unconstitutional manner. Does this mean that non—BJP people are not Hindus, are the sentiments of crores of Hindus not being hurt? Does this mean that apart from the Bharatiya Janata Party and its supported political parties, others will not be considered Hindus? If these people had even a little faith in the Indian Constitution, they would have known that the democracy here gives equal rights to all religions because no religion spreads violence or hatred. The way the speech and expression of the Leader of Opposition in Lok Sabha, Shri Rahul Gandhi ji, is being twisted and twisted by the corrupt systems and fanatic leaders of the country, they are still not aware that the common people of the country are now fed up of their deception. Now this government, which is dependent on only a few corporate houses, is a guest for a few days. History is witness that for centuries, the plundering invaders and foreign governments have been trying to loot

or break the sacred land of our India by spreading hatred and frenzy, but this is the land and the common people here who have later fed such people with the milk of the sixth day. Therefore, this time the voters here have elected the best of patriots and sent them to the Parliament House so that fanatics cannot threaten Indian democracy and the Constitution in their arbitrary ways. Modi Shah ji, you have to deal with only one Rahul Gandhi right now, the rest of the Constitution protectors are yet to be faced, so work in the interest of the country by staying within limits and do not cheat the common people here with false slogans and promises. The kind of conditions that are prevailing in all the countries of the world, India needs to strengthen itself in education, economy, strategy and technology. There is a need to end the terrible unemployment, poverty and inequality prevailing in the country and not to spread social pollution like hypocrisy and fanaticism. If we want to make India a prosperous nation again, then we need to do

something special to strengthen the infrastructure of the common people here. The condition of educated youth, women, farmers and low—level businessmen of our country is very serious. Appropriate steps need to be taken to make them prosperous and strong. So now close the shop of hatred and open the door to development. As per the instructions of Bihar Pradesh Congress Sevadal in—charge Afroz Khan and chief organizer Prof. Dr. Sanjay Kumar ji, to end the evil intentions of BJP and RSS, there is a need to strengthen the organization of Congress in every town, locality and village of Bihar, so the unit of Congress Sevadal organization has to be strengthened in all the blocks of the state. In such a situation, very soon the membership campaign of Congress Sevadal will be started in Jehanabad district as well.

**Yours sincerely**  
**Ashok Kumar "Priyadarshi"**  
President

## I am proud that my leader Rahul Gandhiji spoke about true Hindutva

A fearful BJP tarnished the golden history of Gujarat politics. When Rahul Gandhi praised the great tradition of Hinduism in the Parliament and explained the correct definition of religion, the BJP was afraid that their shop running in the name of religion would be closed. Panicked BJP members have presented the epitome of a rogue party by sending mobs to vandal-

ize Congress offices. Kudos to the Congress party workers and leaders like Babbar Sher who reached the Congress office and became a strong wall to face the BJP goons when the Congress party workers came to know about it. The unilateral action and negligence of the police despite prior notice to the police is reprehensible. Policemen and officers are servants of

the public, not servants of any political party and should work with integrity and honesty. I am proud that my leader Rahul Gandhiji spoke about true Hindutva. It has been taught in Hindu religion that - Don't be afraid, don't be afraid. At the same time, BJP has worked to scare people for its light politics.- Shaktisinh Gohil  
Chairman - Gujarat Pradesh Congress Committee
