Maulana tried to fully utilize his faith and knowledge for the freedom struggle of this India

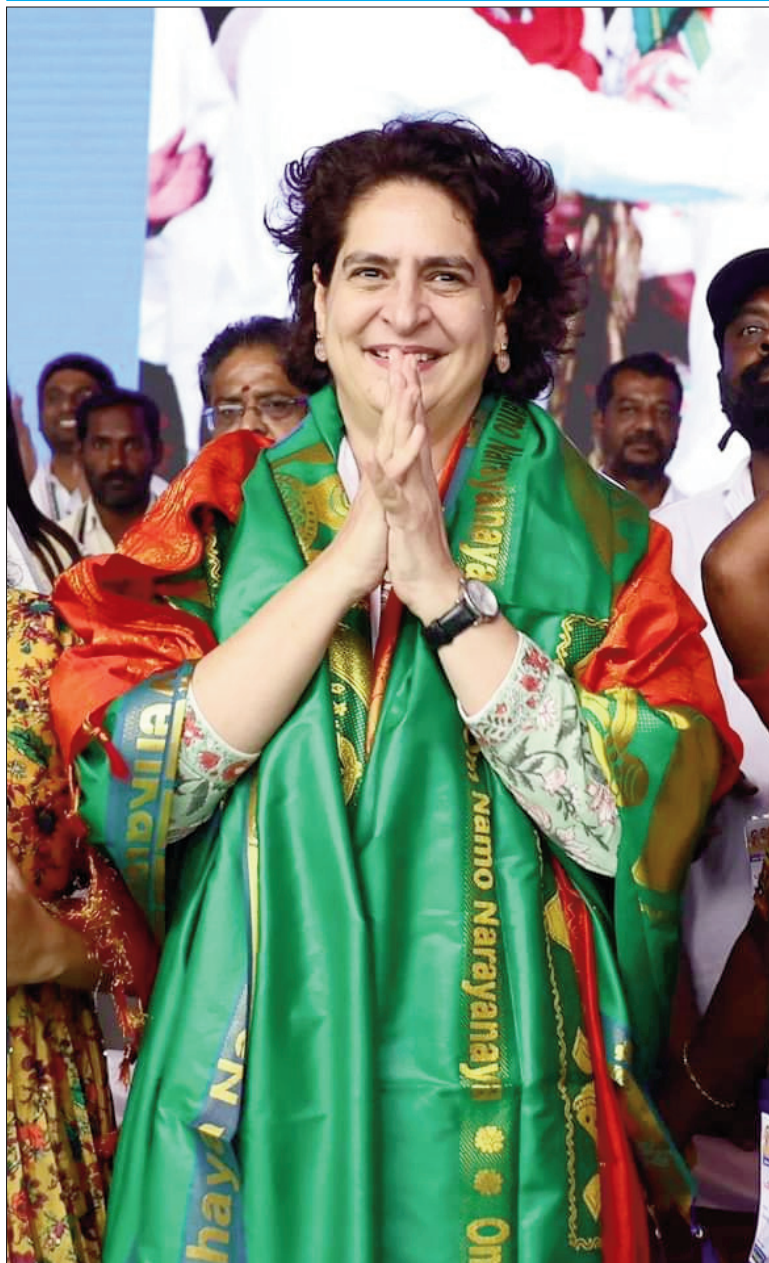

The image of Maulana Abul Kalam Azad coming down from the Delhi Juma Masjid with his Muslim brothers and saying this is your India when India and Pakistan were formed at the time of partition is one that will forever thrill patriots. He is a great person who fought for Hindu Muslim brotherhood. A brave freedom fighter who went from jail to jail and fought for the country. Maulana tried to fully utilize his faith and knowledge for the freedom struggle of this India and later transfer it to the transformation of the country in post-independence India. He acted as the strongest supporter of Mahatma Gandhi. Maulana made strong interventions to bring together or coordinate religion and secularism during the freedom struggle period and the post-independence period. But today the BJP government's move is to worship that great man. With the coming of the BJP government, the activities of the Maulana Foundation in the country were frozen. The scholarship was also suspended. Modi and the BJP government are in the process of destroying every movement made in this country to preserve Maulana's memory. Maulana is out of textbooks. Savarkar, who came out of jail after writing an apology, was included in the textbooks. NCRT made a

complete change in the syllabus to include Savarkar in the textbooks. What can be compared to the central government's heinous act of erasing the passage in order to remove the entire memory of Maulana? Modi can change the syllabus with power, but Maulana Azad cannot be changed from the minds of Indian people. Congress will lead the fight to resist such moves at any cost. When the Congress returns to power, priority will be given to textbook reform to bring Maulana Azad fully into the hearts of the people. A memori-

al foundation established in Kozhikode in the name of Maulana Abul Kalam Azad was inaugurated today. Appreciates the interest taken by UDF Convener MM Hasan and his colleagues to set up a foundation in Maulana Azad's name as a platform to open-mindedly approach the most serious realities facing the country today. It should become a foundation for debates, discussions, seminars and other creative programs that will draw a clear picture of the secular conscience of Kerala.

Union BJP The rights of the states are being taken away continuously in the regime

Union BJP The rights of the states are being taken away continuously in the regime. For this, using the governors of the states ruled by the opposition parties is a continuous phenomenon. Due to the unconstitutional actions of the governors, the trend of blocking the bills passed by the legislative assembly in states like Tamil Nadu, Kerala, Punjab, Delhi, Telangana, and not sending them back to the legislature for reconsideration is continuing. Due to this, the governments elected by the people are unable to function. On this basis, the state governments including Tamil Nadu approached the Supreme Court to protect the rights of the states and to get the approval of the bills passed in the assembly without delay. Recently the Punjab Court has clearly defined the powers of the Governor. A governor is not elected by

the people. The state governments elected by the people and in power should approve the bills passed without delay. Otherwise it should be sent

back to the Legislature for reconsideration. But the Governor of Tamil Nadu sent back the 10 bills to the Legislative Assembly due to filing a case in the Supreme Court against the fact that the Governor of Tamil Nadu had shelved the 10 bills passed by the Legislative Assembly without doing both. In this case, it has been said that the judgment given against the Governor of Punjab is also applicable to the Governors of Tamil Nadu and Kerala states. The Governor of Tamil Nadu R.N. called the lawyer suitable for him and asked what was said in it. Ravi should know. Knowing that, he should come forward to act according to the constitution. I would like to inform you that if this is not done, then the Governor of Tamil Nadu will be condemned by the Supreme Court.

Speaking during the election campaign in Chhattisgarh last week, Prime Minister Modi announced that the Prime Minister's free food grain scheme, which is given to the poor every month under the National Food Security Act, will be extended. He mentioned that it has been extended for the next 5 years so that no citizen should go to bed hungry. This means that by 2028, 80 crore Indians will receive free food grains to protect themselves from hunger. The government expects India to become the world's third largest economy with a GDP of \$5 trillion. This means that a majority of Indians will starve even if the \$5 trillion GDP target is met. Who will benefit from this 5-year goal? - Chairman Mr. KS Alagiri
