BIHAR PRADESH CONGRESS SEVA DAL SADAKAT ASHRAM PATNA-10

140 crore Indians hope, as I do, that the Government and the Opposition work together for India's development. It is our duty to address the issues of people through meaningful and constructive debate. I have a clear message to the Government and to the Cabinet: remember your Constitutional positions - do not spread hatred, do not spread fear, do not spread violence. We, the Opposition are not your enemy, we are the voice of the people and we are here to work hand in hand with you - for them.

In Modi government, students and youth lost faith in exams, 70 papers leaked in seven years : **Dr. Sanjay**

PATNA: CONGRESS DARPAN

Bihar Pradesh Congress Seva Dal state president Dr. Sanjay Yadav said that in BJP Raj, paper leak has become a national problem of our country which has ruined the future of crores of youth till now. This

The future of poor children is being played with

government is making these youth weak instead of making them skilled and capable. In the last 5 years, 43 recruitment papers and in 7 years, about 70 exam papers have been leaked in the country. In BJP Raj, paper leak has become a national problem of our country which has ruined the future of crores of youth till now. India is the youngest country in the world. We have the largest youth population. Crores of talented students study hard day and night, prepare for different exams, parents bear the burden of studies by cutting down on their food and drink. Children wait for years for a

vacancy to come. When a vacancy comes, there is the cost of going to the exam, and finally the whole effort is wasted on corruption. Professional exams have been made commercial exams. This exam has been made for rich children. The NDA government, which is running away from Rahul Gandhi's questions, does not want to discuss this in the House. Students today are unable to trust this exam. They have come to believe that it has been designed for the children of the rich. Dr. Sanjay said that when paper leaks, cheating and rigging in exams sideline deserving

candidates and push undeserving candidates ahead, then every sensible Indian bows his head in shame. It is impossible to compensate for the time and age of students wasted due to the cancellation of these competitive exams. Lakhs of students of the country participate in these exams to ensure their golden future, to contribute to nation building and to fulfill the dreams of their family. The students participating in these exams work tirelessly. Which can only be imagined. The Modi government has tarnished the image of a prestigious exam like NEET and an agency like NTA.

The PM said in this assembly - Only one is the most powerful

PATNA: CONGRESS DARPAN

Opposition had to struggle hard to express their opinion in the Assembly, because BJP thought there should be no opposition in the parliament. If his thoughts were not like this, he wouldn't have been vacant for the first time in the seventh Loksabha. The Prime Minister said in this assembly - Only one is the most powerful. Country's constitution and public are the best in election results. There is no place for arrogant slogan in democracy. Modi government is hiding its failures. We have 10 years of experience all these things are being discussed only in speech. This is not working on the ground. The constitution gave us the right to an adult franchise even though this election voting was much less than 2019. Village voters participated

with more enthusiasm during the election, so thanking them. The principal said the public is the masters and supreme in democracy and I agree with this. The President is the most important part of the parliament. We respect him very much. The content of the address is formal.

The government had to make this a visionary statement. It was important to say how we will deal with challenges even though there is no such content. This time President's first speech was on 31 January and second speech was on 27 June. The first speech was election

related and the second is the same. There is no direction, no vision. We were sure the President would definitely say something about the challenges of the constitution and democracy.: Congress president and Raja Sabha opposition party Mallikarjun Kharge

Seva Dal family heartily congratulates **Himkar Bhardwaj**

PATNA: CONGRESS DARPAN

Today on 01 July 2024, in the presence of Bihar Incharge Mohammad Afroz Khan, Chief Organizer Prof. Dr. Sanjay Kumar, State Vice President Mohd. Ahmed Raja Khan, State General Secretary Ashutosh Ranjan, State General Secretary cum Office Incharge Vipin Jha, State General Secretary Sunil Kumar Suman, State Secretary cum Patna Incharge Sukesh Kumar, Shri Himkar Bhardwaj ji, a resident of Patna, operator of small scale industries and a struggling social worker and politician since his student days, took membership of Seva Dal today. Seva Dal family heartily congratulates Himkar Bhardwaj ji.

Today inaugurated '**National Doctors Day**' organized by the Health and Family Welfare Department

Doctors working in government hospitals should work more socially. It is very important for doctors to follow their profession. Doctors will become god if they save the patient's life. Doctors should not be neglected for any reason in their profession. Be careful that even if you show a little negligence, it will be disaster. If you do the service of patients as God's work, you can prevent diseases and reduce the number of

patients in society. The health department should also keep in mind to prevent diseases. Our government will provide the necessary grant for the construction of doctors house. Doctor profession is the most sacred profession. It is thought to be a doctor or Narayano Hariha. Doctors are the ones who protect the health of the society and protect the health. Can't forget doctors service during corona. Doctors have

left their life and worked. Government is also trying to maintain the health of society. Central and state governments are implementing many programs. Government hospitals get more poor people. Every doctor should do the work of giving patients self-confidence. Diseases like irritation, plague, polio etc have been eliminated, some are under control. Still possible to eradicate. Science - Technology

grows, the more diseases are eradicated. Dengue fever is increasing in Bangalore, this should be protested. A review meeting was held on this, the public should also join hands with the government regarding this. Only then it can be solved. Cigarettes are fatal to health, they smoke cigarettes. Even people need to be aware. Should stay away from evils. Back in the day I also had the habit of smoking cigarettes. Angioplasty has been undergoing in recent years due to the result of smoking decades ago. Changing our diet and lifestyle can prevent many diseases. Education and health are very important for social economic growth. A healthy society can only be built when everyone is healthy and has financial power. The doctor is B. C. Should try to walk in Roy's path. **#NationalDoctorDay**

Stop Misusing ED IT CBI

"Stop Misusing ED CBI IT" Opposition MPs, including LoP Shri Rahul Gandhi, protested at Parliament against BJP's misuse of central agencies for targeting political rivals.

Everyone knows that Modi government is abusing central agencies. On this issue, opposition leader Shri @RahulGandhi and opposition MPs protested in the parliament complex. Modi government's dictatorship will not last.

KPGC President and DGM DK Shivakumar received reports from the public at the "Government at the door, let there be cooperation for service" program held at Aralalusandra, Channapatna Taluk, Virupakshipura Hobli, Ramanagara district. Before this talked about the purpose of the program, the process of solving problems. Minister Ramalinga Reddy MLCs Puttanna, S. Ravi, Bangalore-Mysore Infrastructure Corridor Area Planning Development Authority President Raghunandan Ramanna and many others were present.

They disqualified Rahul Gandhi ji from the Lok Sabha, but the people elected him again from two constituencies. If he has said anything wrong, then the speaker can take action. But the same rule should be applied to all. Rahul Gandhi ji has spoken the truth! We are not worried. We are not scared! : Congress General Secretary and MP Shri K.C. Venugopal

'Don't be afraid, don't be afraid'

All religions including Hindu, Muslim, Christian, Sikh have said it. But in BJP, the job of those who claim to be Hindus is to spread violence, fear and lies....
"- If opposition leader Rahul Gandhi says like this, why should BJP leaders burn? Narendra Modi to, R. S. Will it be like telling the whole Hindu religion if they target S and BJP? The BJP, who cannot answer questions raised against the central government in Parliament today, is trying to hide its failure by twisting what he said to Hinduism. Watch the half-nourished fake news on WhatsApp Bharatiya Janata Party (BJP) and don't share it with others. Here's the full video covering what the truth is.

G organized by Commerce Tax Department

G organized by Commerce Tax Department at Vidhana Soudha Banquet Hall today. S. Inaugurated the T day program, spoke by presenting Chief Minister's Service Awards for 2024-25. We can see in many legislations that there was a tax system since the time of kings before the democratic government. Legislators say Kadambaru started sales tax in Karnataka. Tax required to run the state. Only those who can pay tax pay taxes. Every government will run the country and state by collecting taxes. Constitution has given power to central and state government to impose taxes. Government of Karnataka G. S. Wat used to collect tax before T. G. S. T is indirect tax. There is a cry that the states are not getting proper tax share from the Center. Currently the 16th Finance Commission is being formed. We are proposing that tax allocations should be appropriately allocated to the states that pay the highest tax to the Center. During the 15th

Finance Commission period, the state government has given percentage. We have tried to bring to the notice of Central Government, MPs and Prime Ministers that tax has been reduced by 1.7%. The development of the state is possible if more tax is collected. 60,000 crore rupees are required for guarantee projects. Everyone should have financial and social power to

lose society inequality. Only then can equality come. Working on giving a special program to the financially vulnerable and strengthening them. It is necessary to have resources to give strength to the poor of all religions and all castes. Commerce Tax Department will try to prevent tax leaks. 1,22,821 crore tax collected in 2022-23. The Commerce Tax Department has done a good job by collecting 1,45,266 crore rupees in 2023-24. Awards were distributed to 65 people from the Commerce Tax Department today, the remaining six thousand officers should also work towards receiving the awards. I wish this program will be an inspiration to others. Chief Minister's political secretary K. Govindaraju and Nazir Ahmed, Finance department and Chief minister's extremely chief secretary L. K. Ateeq, Commerce Tax Department Commissioner C. Shikha Finance Department Secretary P. C. Jafar and others dignitaries were present at the function.
